

***Technol*[®] 503**

Diesel Conditioner for Common Rail Injectors

Bulleled Highlights

- Specifically designed for Tier 3 & 4 engines with common rail injector issues
- Increases fuel lubricity while stabilizing fuel and preventing sludge formation
- Increases Cetane up to 5 numbers lending to more greater horse power and torque
- Cleans tanks, lines, filters, combustion chambers, pumps, intake, and exhaust valves
- Controls water build-up, tank rusting, and inhibits corrosion
- Lowers exhaust emissions, carbon, and soot build-up
- Lowers maintenance costs and downtime

Truck Fleets with Rail Injectors ▲ Diesel Generators
EPA-Approval #1642-20015 both for On-road and Off-road use
