

Technol[®] Magnum

Technical Data Sheet

PROPERTIES

Appearance	Light Brown
Magnesium, % wt.	13.0
Total Base Number	550
Water, % wt.	-
Viscosity @100°C, cSt	25
Flash Point, COC °C	60°C
Specific Gravity	1.190
Pounds/Gallon	9.934

HANDLING

Technol Magnum is a highly active organometallic liquid form of magnesium and is normally stored at room temperature. For general purposes, the following storage and handling temperatures are recommended:

45°-85°F
[7.2°C-29.4°C]

Normal precautions in the handling of industrial and/or petroleum chemicals should always be observed. Keep this and all other chemicals away from children and animals.

SAFETY INFORMATION

For more comprehensive information on the safe handling, use, storage and transportation of Technol Magnum, please refer to the Safety Data Sheets .

AVAILABILITY

Technol Magnum is readily available in non-returnable 55-gallon drums, tank trucks and tank rail cars. For more information, please contact your Technol representative.

The information contained herein is correct to the best of our knowledge. Your attention is directed to the pertinent Safety Data Sheets for the products mentioned herein. All sales are subject to Technol's standard terms and conditions of sale, copies of which are available upon request which are part of sales invoices and order acknowledgements. Except as expressly provided in Technol's standard terms and conditions of sale, no warranty, expressed or implied, including warranty of merchantability or fitness for particular purpose, is made with respect to the products described herein. Nothing contained herein shall constitute permission or recommendation to practice any invention covered by a patent without a license from the owner of the patent.
